Breathing Life into Beauty

There is more to beauty than what we touch and see.

Life in itself is a thing of beauty. More than a state of mind, beauty is a reflection of the soul. Beauty is defined by what we are and breathes with a life all its own.

Whether we are aware of it or not, beauty is an existence that touches us all.

ReFa is all about helping to shape and nurture that life to its fullest potential.

It represents a commitment to continually redefine the beauty culture into one that is dramatic and uniquely our own.

Let ReFa be the beginning of an unprecedented experience that reawakens the beauty pulsating in every inch of your body.

made possible with a beautiful lotus-cut, 840-facet
multifit roller.

A gentle touch reaches throughout the skin,
drawing it in to create a lively smile and expressive beauty.

* Drainage is a technique that estheticians often perform, and is not meant to express
any effect the product has on your body.

FACE

Esthetic Method

Replicates "Point Drainage*" manipulation for pushing and drainage to generate comfort. Roll along the curve of your face to help guide your skin to suppleness.

Microcurrent

Very mild microcurrent is generated by drawing in light with a solar panel fixed in the handle.

Platinum Coating

The surface of the rollers are coated in a brilliantly bright platinum, making it compatible for even delicate skin.

* Drainage is a technique that estheticians often perform, and is not meant to express any effect the product has on your body.

HOW TO USE

Standard Way to Hold

Firmly grip the thicker part of the handle without covering the solar panel with your hand.

Rolling Method

Roll both ways over the soft parts of your skin, along the lines of your face and décolletage.

Face Line Care
Roll along your jaw line from the bottom of your chin to your ear.

Eye Care
Roll gently right and left under your delicate eyes.

Decolletage Care
While pressing the roller in the hollow above your collarbone, roll to the right and left along your collarbone.
